& Analyze)
Research computing
facilities,
Domain specific
databases

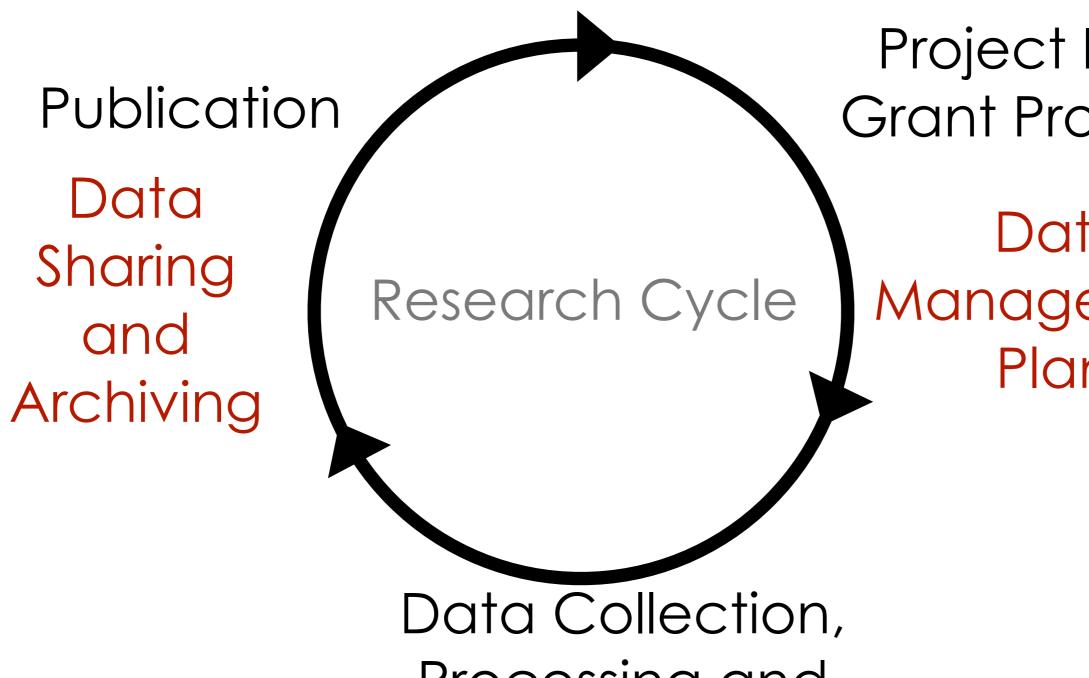

Publications,
Presentations,
& Grant Results
Journals, Books,
Reports, Web Sites

Final Data, Code & other Materials (Share, Cite & Archive) The Dataverse Network

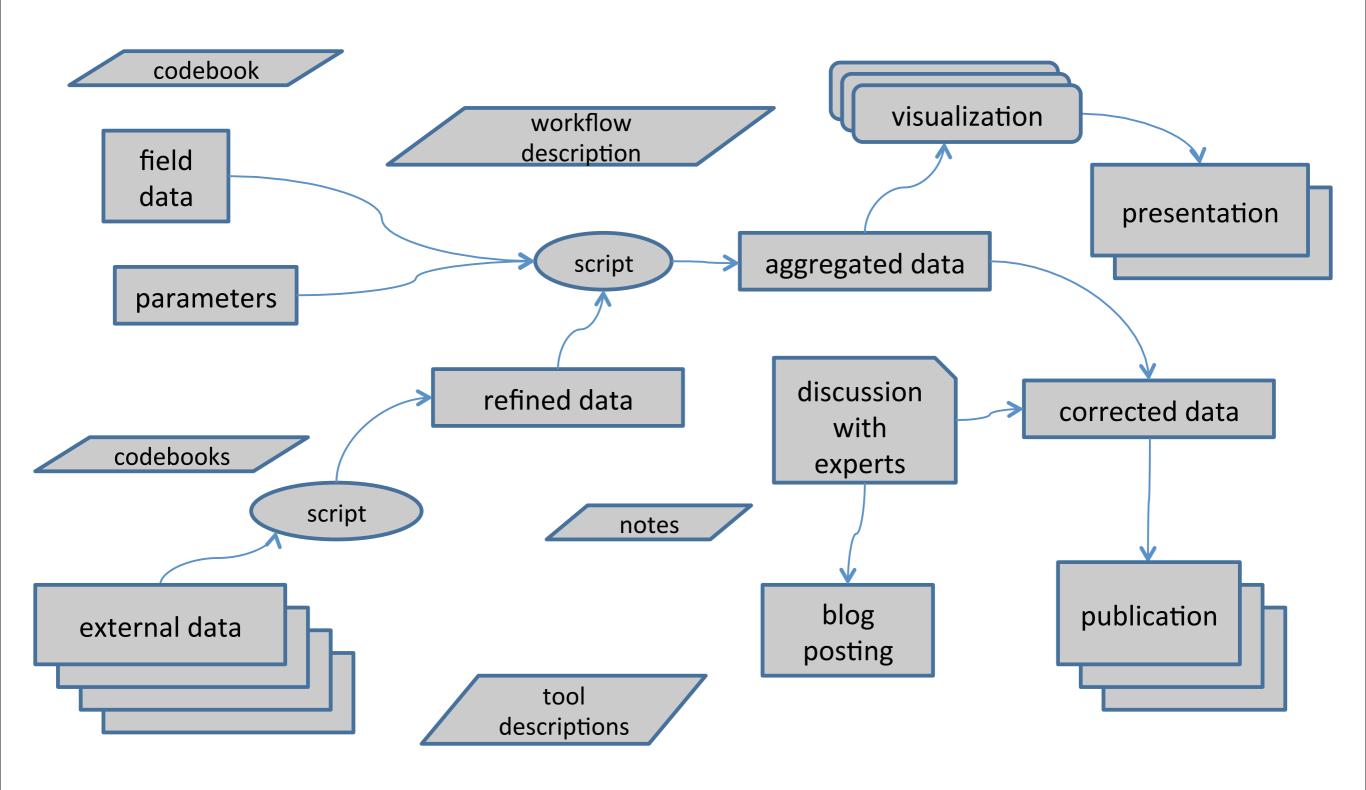

Project Idea Grant Proposal

Data Management Plan!

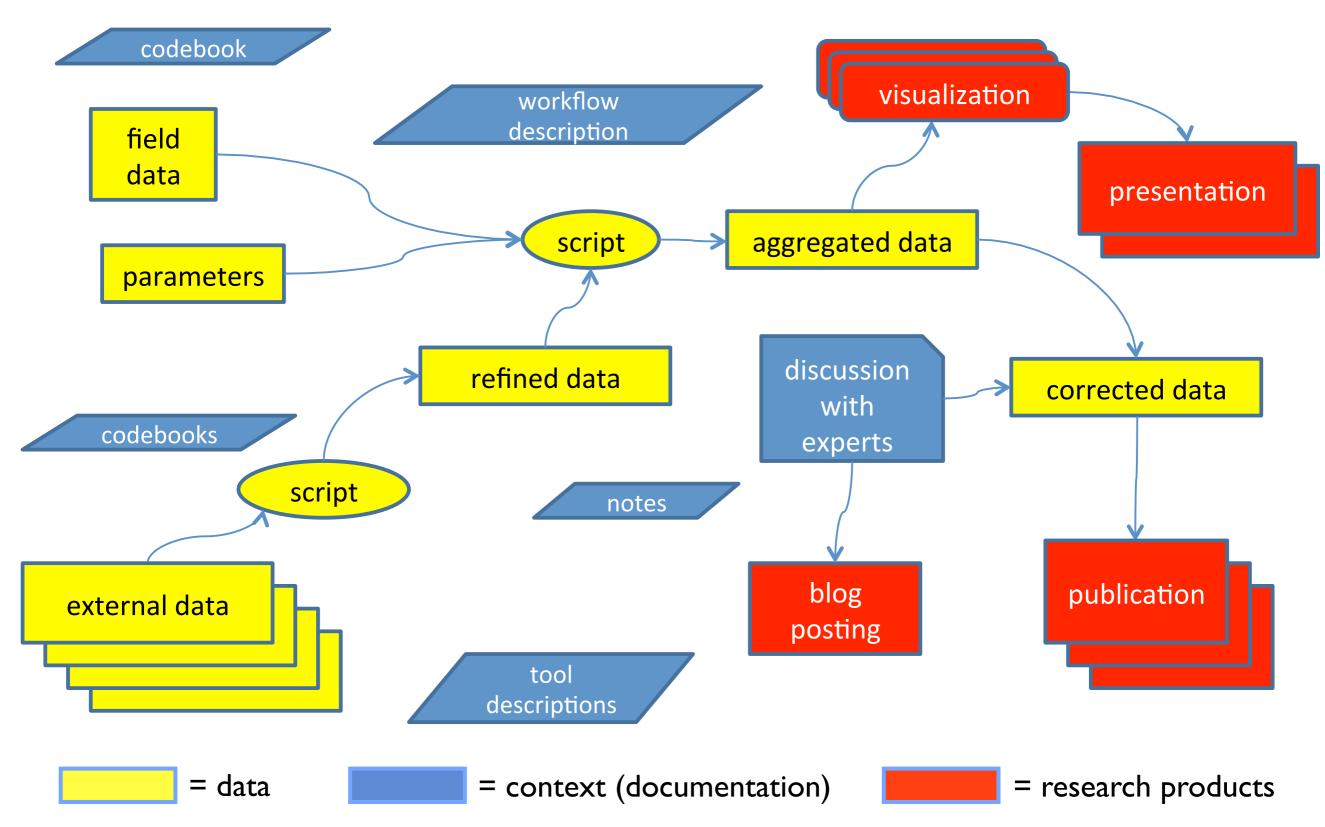

Processing and Analysis

### Which Data?

Slide acknowledgment: Andrea Goethals

### Which Data?

Slide acknowledgment: Andrea Goethals

### Assortment of Data Types?

- Survey data
- Weather measurements
- Computer models
- Simulation outputs
- Software
- Input data
- Federated queries
- Geospatial data
- Enumerations
- Vital statistics
- Interviews
- Transcripts
- Medical and genetic data

- Scripts
- Administrative records
- Field data
- Bio images
- Experimental data
- Spreadsheets
- Visualizations
- Instrument outputs
- Structured data products
- Database
- Quantitative tabular data
- Qualitative data
- Recordings

A repository for research data that takes care of long term preservation and good archival practices, while the researcher keeps control of and gets recognition for his data

A repository for research data that takes care of long term preservation and good archival practices, while the researcher keeps control of and gets recognition for his data

A repository for research data that takes care of long term preservation and good archival practices, while the researcher keeps control of and gets recognition for his data

#### Researcher

✓ Deposits data and enters metadata

A repository for research data that takes care of long term preservation and good archival practices, while the researcher keeps control of and gets recognition for his data

- ✓ Deposits data and enters metadata
- √ Gets data citation (handle, UNF)

A repository for research data that takes care of long term preservation and good archival practices, while the researcher keeps control of and gets recognition for his data

- ✓ Deposits data and enters metadata
- √ Gets data citation (handle, UNF)
- ✓ Displays data on own web site

A repository for research data that takes care of long term preservation and good archival practices, while the researcher keeps control of and gets recognition for his data

- ✓ Deposits data and enters metadata
- ✓ Gets data citation (handle, UNF)
- ✓ Displays data on own web site
- √ Manages data permissions

A repository for research data that takes care of long term preservation and good archival practices, while the researcher keeps control of and gets recognition for his data

- ✓ Deposits data and enters metadata
- √ Gets data citation (handle, UNF)
- ✓ Displays data on own web site
- √ Manages data permissions
- ✓ Updates new versions

### Researcher

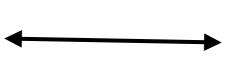

# Centralized Data Repository

- ✓ Deposits data and enters metadata
- √ Gets data citation (handle, UNF)
- ✓ Displays data on own web site
- √ Manages data permissions
- ✓ Updates new versions

✓ Backups and replication of data in different locations (LOCKSS)

A repository for research data that takes care of long term preservation and good archival practices, while the researcher keeps control of and gets recognition for his data

### Researcher

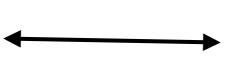

- ✓ Deposits data and enters metadata
- √ Gets data citation (handle, UNF)
- ✓ Displays data on own web site
- √ Manages data permissions
- ✓ Updates new versions

- √Backups and replication of data in different locations (LOCKSS)
- √Conversion to archival formats

### Dataverse Network (centralized repository)

American Journal of Political Science

American Journal Dataverse Network > American Journal Dataverse for

The American Journal of Political Science is counted to grow the first understanding of citizenship, governance, and oil is, and the first of the first research.

RICE

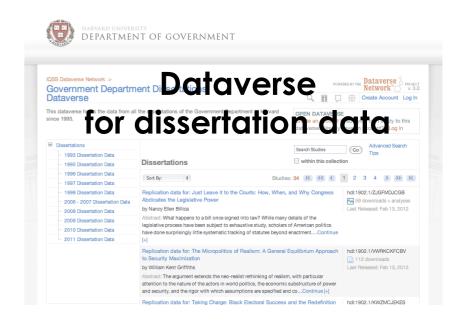

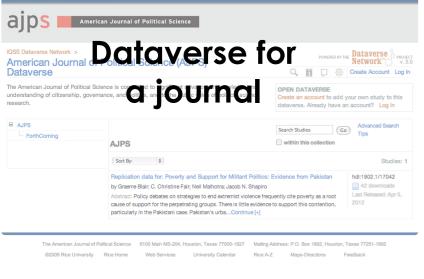

Dataverse Network (centralized repository)

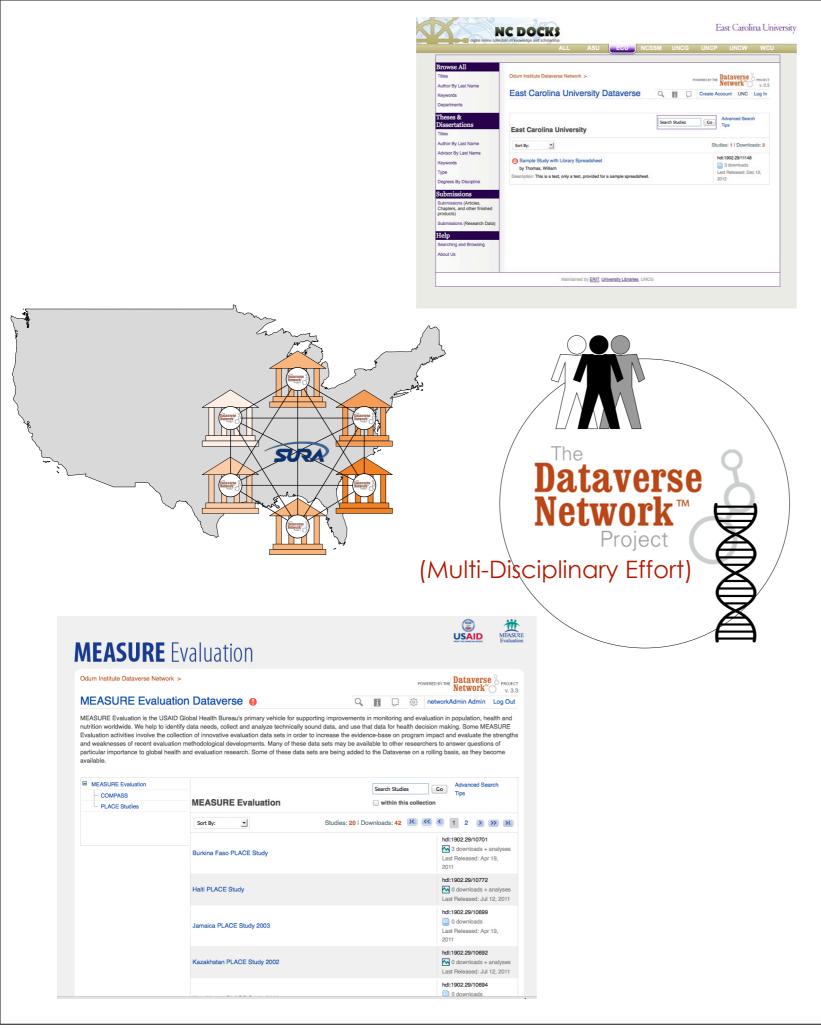

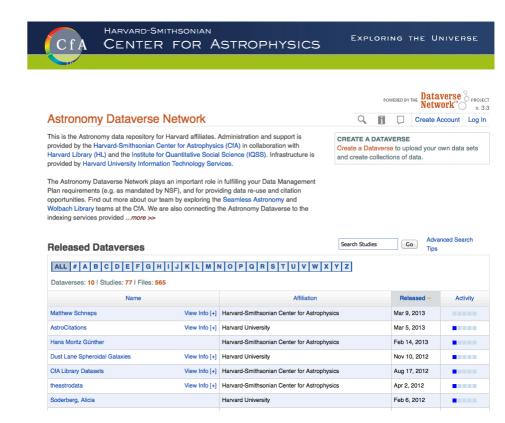

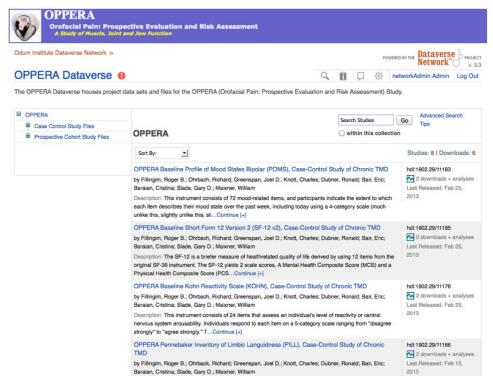

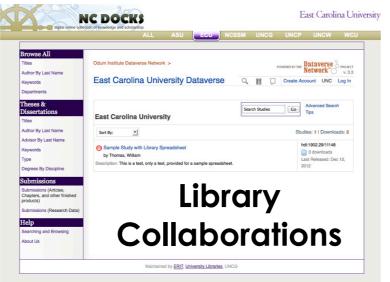

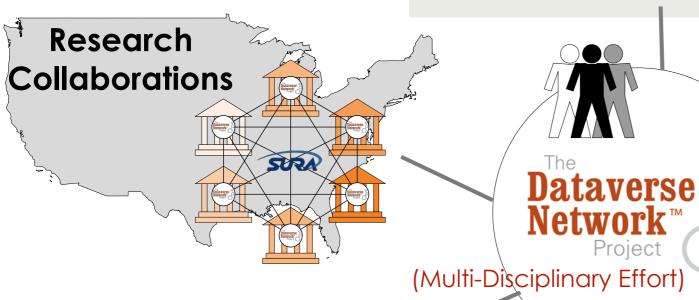

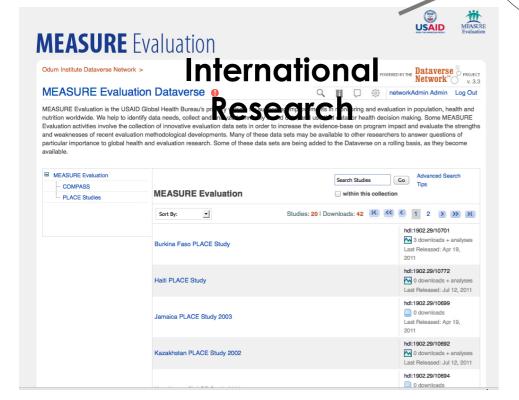

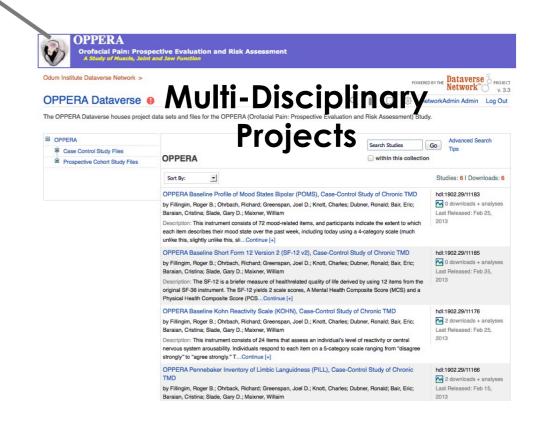

### Why Dataverse?

Online Analysis

Discoverability

Ingest Tools

Distributed Preservation

**Enable Data Sharing** 

**Data Curation** 

Standardization

Preservation Auditing

### Integration with CyberInfrastructure

### eirods-consortium.org

**Big Data: DataBridge** 

A Sociometric System for Long-Tail Science Data Collections

### Secure Data Management and Auditing

### Auditing Data Management Plans

### Secure Data Management and Delivery

Synthetic data

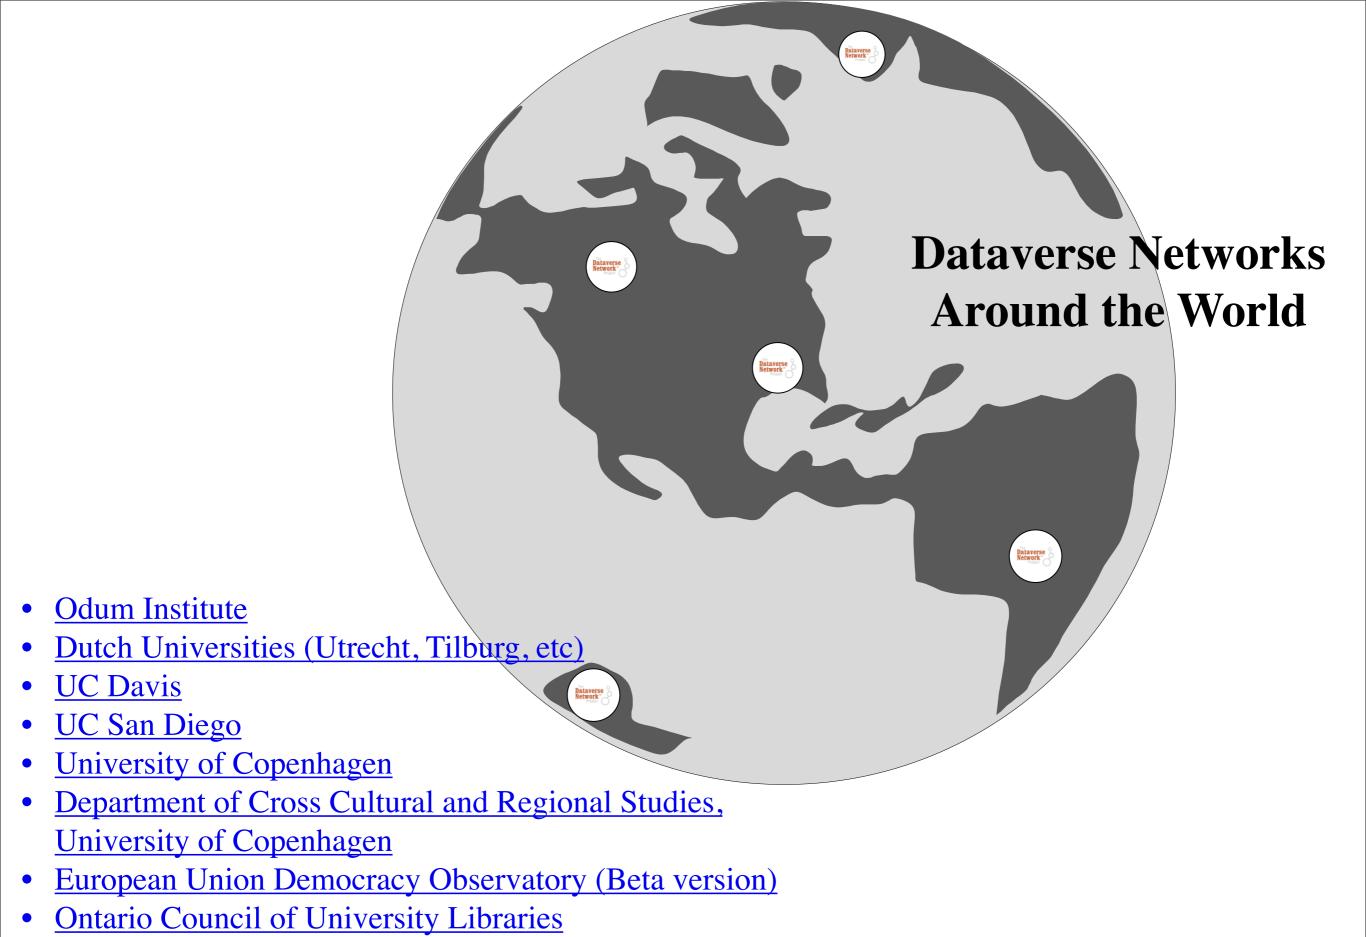

Differential privacy

Dataverse Networks at Harvard (collaboration between IQSS, Harvard Library and University IT):

- IQSS Dataverse Network:
- Astronomy Dataverse Network:

Dataverse Networks at UNC Chapel Hill:

- Odum Institute Dataverse Network:
- NC DOCKS Dataverse
- SURA Pilot Project Dataverse

**Thailand** 

#### DATA MANAGEMENT CHALLENGES

- Funding agencies and journal publishers are placing additional demands on researchers for data sharing and access
- Data-intensive science has enabled collaborative research that crosses disciplinary and institutional boundaries
- Researchers do not have access to or are unaware of tools and services to help manage their data
- Discipline specific customization to tools

# Thank You
